WHAT I CAN DO TODAY

I can explain why immigrants came and check the 'golden door' story against the evidence.

"The Steerage" — photograph by Alfred Stieglitz, 1907, public domain (Library of Congress)

Directions

First sort the reasons people came. Then compare two photographs and decide whether they support the idea of America as a 'golden door.'

1 Push or pull?

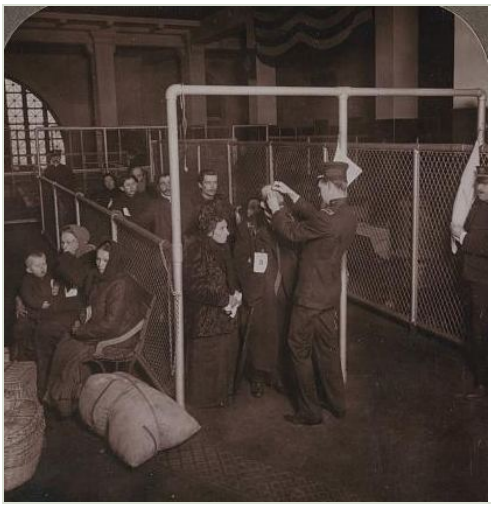

A push factor drives people out of their home. A pull factor draws them to America.
